

# What is psychometrics? Program 2015

Organizer: Denny Borsboom ([dennyborsboom@gmail.com](mailto:dennyborsboom@gmail.com))

Location: University of Amsterdam, Department of Psychology, Weesperplein 4, Room 2.21

## Abstract

This course is designed to give an overview of psychometrics as a field. The lectures cover general topics that are relevant to many subfields of psychometrics: different types of modeling, the relation between psychometrics and neighboring fields, the history of psychometrics, and the function of psychometrics in society.
